

LUIS CÉSAR

SOFTWARE DEVELOPER

PROFILE

End-user focused full stack developer with experience in the IT world working on creating elegant, responsive, and efficient applications that provide real value to the community. Technology has helped me in the past, I want to give back as much as I've received. Software development is allowing me to do so.

EXPERIENCE

Kronos, 2018 - current

IT Support Specialist

Deploy, manage, and support all IT assets for Kronos LATAM, also provide on-site support to around 50 users in Mexico City and remotely to thousands around the globe.

- Standardized the system deployment process in LATAM to provide corporate IT more transparency and control over systems in the area.
- Modernized the IT infrastructure in the entire Mexico office by replacing old equipment with new one
- Brought corporate IT closer to the regional operations so we can start implementing corporate-wide IT projects in LATAM.

CBC Group, 2016 - 2018

Web designer &
Online Content Manager

Managed the online presence of the company.

- Revamped company image by creating a brand new website
- Generated new leads and revenue to the company by starting an e-commerce model and integrating it into the website
